

Zoom Trial Room

A guide to testing your equipment

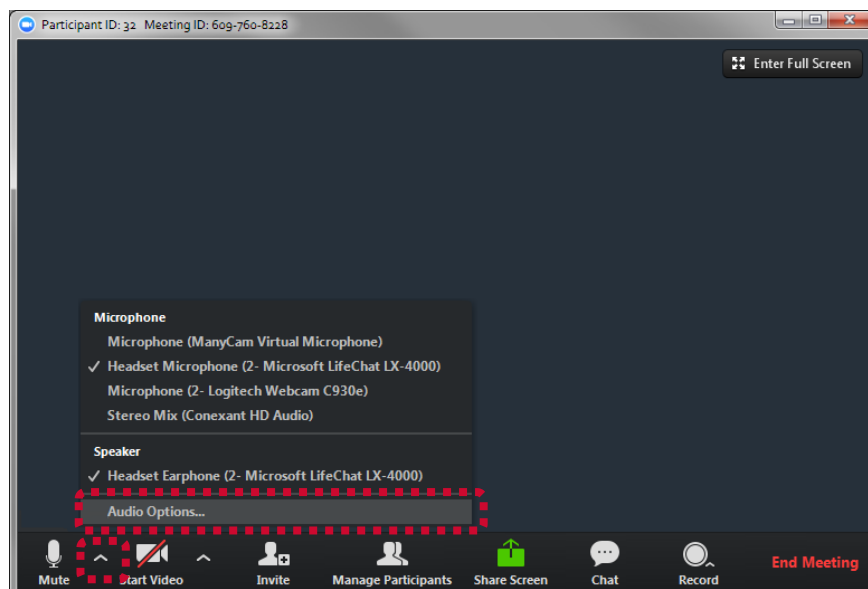

The Zoom Trial Room is open 24/7 and allows you to test out your audio and video. Please note that others are free to join the room at any time, so if someone joins the room while you're using it, please feel free to test your setup with that person.

Connecting

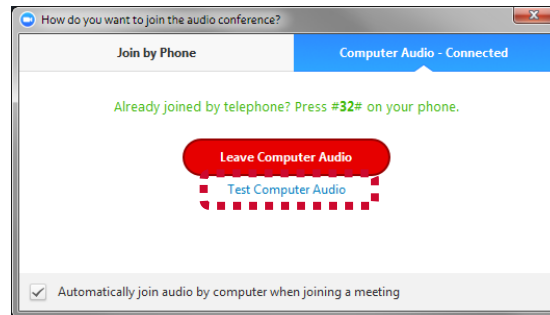

1. Go to <https://bhhc.zoom.us/my/trialroom>
2. This will open a tab in your web browser. Zoom should open automatically, but *if it doesn't*, click on "download & run Zoom" (right)
3. You will enter the Zoom Trial Room
4. To start your audio, click on the Join Audio button:

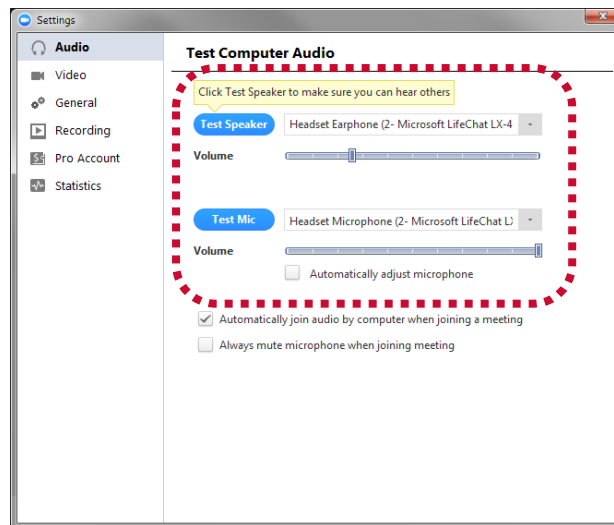

5. If you do not see this button, clicking on Audio Options will bring it up

- Once you've joined your audio, click on "Test Computer Audio"

- Then use the Test Speaker and Test Mic buttons to test your audio. If either does not work, try selecting other microphone/speaker options until you find one that works. Also be sure that your volume sliders aren't turned all the way down:

- If you see yourself in video, your webcam is working. If not, then use the up arrow shown below to select a webcam that works:
